Based in Tampa, Florida since 1991, Southern Communications Construction, Inc. has been an innovator and leader in the telecom industry delivering timely and quality turnkey service solutions to meet the needs of our customers. We also have a Divisional office located in North Palm Beach to ensure our accessibility to the entire state. Throughout the years we have diversified our company's ability to utilize our equipment and trained personnel to develop a variety of infrastructure systems. Since the year 2000 we have successfully built Electrical Power Duct Bank projects as well as multi conduit Duct Bank construction for telephone communications. We have performed major projects for CH2M Hill, Utility Lines Construction Services, Asplundh Construction, Danella Corporation, East Coast Utilities, Inc., and many other major construction corporations. For the past 17 years we have held a Master Services contract with the Hillsborough County Division of Bright House Networks. Turn key commercial and residential underground construction incorporating cutting edge fiber optic technology is the mainstay of our business. Safety and worksite security, quality work, efficiency and cost effectiveness is of paramount importance to our staff and customers. This company holds two Florida State Licenses including General Contractor and Electrical Contractor.

Our list of diversified services includes but is not limited to:

- **Horizontal Directional Drilling -Specializing in small to large diameter 1 ¼"- 42" bores for a variety of utilities**
- **Sub-Aqueous Horizontal Drilling of navigatable waterways utilizing wire line services for Horizontal/Vertical Control**
- **Communications Systems – Turnkey contractor, underground, HDD, aerial, fiber optic coax, splicing forward and reverse activation sweep/ testing, complete infrastructure wiring for Commercial and Residential structures**
- **Fiber Optic/ Copper/ Coaxial Splicing & Sweep Testing**
- **Aerial Communications Construction**
- **Site Development/ Utilities & Lighting**
- **Engineering & Design**
- **Electrical Power Duct Bank Systems**
- **Communications Duct Bank Systems**

We strive to perform our work with professionalism and within safety protocols, time frames and budget constraints. Each project is attended to by our seasoned staff that has a long history with this company. We look forward to working with your organization and are available by cell. Please feel free to contact us at your convenience.
